Control With Alexa Or Google Home

Voice activation in smart home products is an emerging trend. In the Alexa and Google Home app, there is a Smart Home section for users to set up their devices. Amazon and many other companies are making it easier to integrate smart products. While you can use the Insteon Remote Control, you can also use a voice assistant. "Alexa, "Let there be light" then the lights turn on. Use remote light control with your favorite home assistant.

FEATURES:

- Fan: On/Off and dimming control.
- 5 Different Speed.
- Snubber circuit enable.
- Accurate firing angle control and smooth dimming.
- Operating Voltage AC 230V / 50HZ.
- Isolated power section from the input.
- 1-Switch Relay Control.

SPEC:

- Internal Fan Speed Regulator with Wifi Regulator
- 4-Way Control with 1*7A Relay
- Mode: Toggle- ON/OFF- by Router Wi-Fi.
- Control Mode: By App and switches
- We can use Day / Night mode for power saving.
- (Save/Erase all ON/OFF previous status in memory by user apps)
- Transportation Mode: Wi-Fi
- OS: Android
- Wi-Fi Working Frequency: 2.4G 802.11 b/g/n
- Load Power: 1000W
- Working Voltage: DC5V
- Rated switching current: 7A
- Rated switching voltage: 250V
- Relay Life: 1000000 times
- Insulation resistance: 100M
- Relay maximum pull-in time: 15ms

Relay maximum release time: 5ms

Distance will support the router signal strength only.

Operating temperature: -40°~70°

Working Humidity: 40%~80% RH
